

INT. PAYSON HOSPITAL E/R - DAY

A DOCTOR, 50's, is standing in between Helen and Mary with charts in hand. Robby, Al and Matt are also in the room.

DOCTOR

Robby and Mary both have a slight concussion. Something to watch out for the next day or two. She got quite a bit of the shattered glass in her legs. We got her cleaned up and she's on some pain relief.

Mary is laying quietly in her bed, asleep.

DOCTOR (CONT'D)

They are both going to be fine.

HELEN

(winks to Robby)
Good to hear.

DOCTOR

You, on the other hand, have a hair-line fracture in the middle of your spine. I have you on some heavy pain meds. It's a clean break. You're very lucky.

MATT

She was walking around right after it happened. I told her not to.

HELEN

You're still here why?

Al looks at Matt, apologetically.

DOCTOR

I can send you all home but I'd like you to make an appointment with your

family doctor when you
get back to Phoenix.
I'll prescribe enough
pain meds to last you
for awhile. You need to
go home and lay still.
Let that spine heal.

HELEN

Okay. Thank you.
